

# Solid Waste

## Process

S3IDF provides waste entrepreneurs with financial literacy training, facilitated loan guarantees and business mentorship to enable their financial inclusion. Our hands-on engagement provides waste entrepreneurs with critical insight into the formal banking system & the livelihood strengthening schemes available to them. Additionally, S3IDF offers entrepreneurs' access to technology, asset ownership opportunities, and training on the technological equipment necessary to best serve their communities. Through implementing multi-stakeholder collaborations, S3IDF catalyzes a more sustainable, integrated waste management system. S3IDF is empaneled by the government's NSKFDC in recognition of the replication value of our particular waste worker livelihood strengthening approach.

## How We Engage

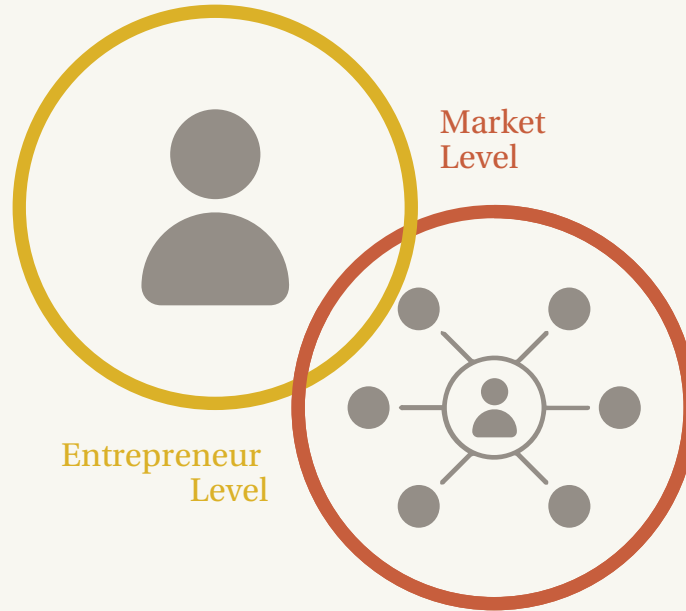

**FINANCIAL ENGAGEMENT**  
Facilitate access to financial services through formal institutions

**BUSINESS DEVELOPMENT**  
Provide training to build capacity & improve daily operations

**ADDITIONAL SERVICES**  
Gain access to social services & technology through critical partners

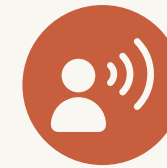

**MARKET OPPORTUNITIES**  
Facilitate relationships between corporations & the bottom of the pyramid

**INCLUSIVITY**  
Work with corporations to apply inclusive internal practices on a global scale

**BUSINESS DEVELOPMENT**  
Train stakeholders on opportunities for increased engagement

**KNOWLEDGE SHARING**  
Disseminate information on our market systems approach & methodology

**RISK MITIGATION**  
Provide risk reduction for stakeholders to encourage expanded offerings

**CONSULTATION**  
Discuss opportunities for BoP engagement with multi-nationals

## Partners

**SOCIAL ENTERPRISES**  
Harnesses the power of the market to ensure program sustainability

**NON-PROFITS**  
Strengthens impact through enhanced reach & hands-on interaction

**FINANCIAL INSTITUTIONS**  
Fosters program longevity & inclusivity; allows for customized services

**MUNICIPALITIES**  
Compounds programmatic impact & promotes systemic change
